

Dear Dr. Fisher,
I sincerely appreciate the time,
effort and dedication you have
spent mentoring me and educating me.
Given your very busy schedule, I
know it is not always easy or
convenient for you to teach or work
with me, and yet you gave so
very generously of your time, knowledge
and ~~patience~~ patience.

I have learned the world from you,
fell in love with plastic surgery and
have yet to learn more. Your involvement
has helped me become a better teacher,
future doctor as well as a better
person.

My gratitude for your contribution
to my future success is immeasurable.

Thank you for being a father figure
to me.

Love,

Lee

"If you want to be
the best, then compare yourself
to the best, and acknowledge
that it will never happen
without hard work."
