

I wanted to send you all a very big thank-you.
My experience has been a wonderful one thanks to
the collective efforts of everyone from Dr Fisher's office
and surgical team.

With extra special thanks to Bonnie for all her
kindness and all her very organised long distance
communications with me over the past few weeks.

A big warm thank-you to the amazing surgical team
who looked after me so well! Those friendly nurses and
the wonderful Anaesthetist who made me feel very safe
and come threw on the no nausea request. I really
appreciate the dedicated care you gave to me.

I am of course especially grateful to the
amazingly gifted Dr. Fisher. The combination of your
kindness & skill has rendered me forever grateful to
you. I LOVE my new boobs!!! Love love love them!
And even though they are very much an addition
to my body, it feels like you have removed the
shadow of inadequacy I used to shyly hide in.
With all my heart Thank you.

Lots of Love to all of you
